

# NOTICE

## OF HYDRO WORK IN YOUR NEIGHBOURHOOD

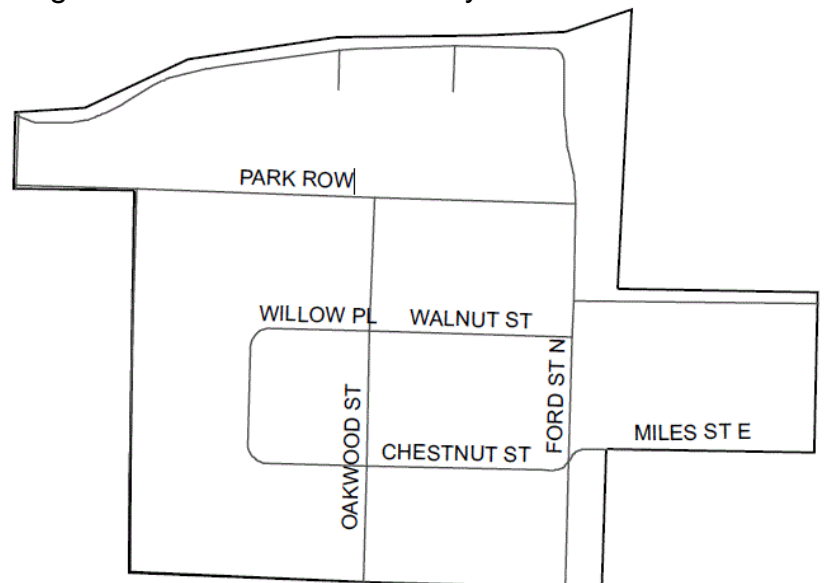

September 2018 – December 2018

Thunder Bay Hydro is in the process of upgrading the electricity system throughout the area. Your neighbourhood is scheduled to be upgraded beginning in September.

Both our company and contractor trucks will be on location. Crews will be replacing old hydro poles and upgrading the power lines to a higher voltage. This will improve the reliability of the equipment in the neighbourhood and make the system more efficient.

The following area will be affected:

- Park Row
- Willow Pl.
- Walnut St.
- Oakwood St.
- Chestnut St.
- Ford St. N
- Miles St. E

***If you have received this notice***, you may experience a few power interruptions during the course of the project. Street lights in your area may also be affected.

For example, when we transfer your service line to the new power lines, power will be interrupted for about an hour. When we anticipate a longer interruption, we will try to notify you in advance wherever possible.

If you have any concerns, special schedules or questions,  
please call

Mark Backor, Line Construction Supervisor 807-343-1176
