

NOTICE

OF HYDRO WORK IN YOUR NEIGHBOURHOOD

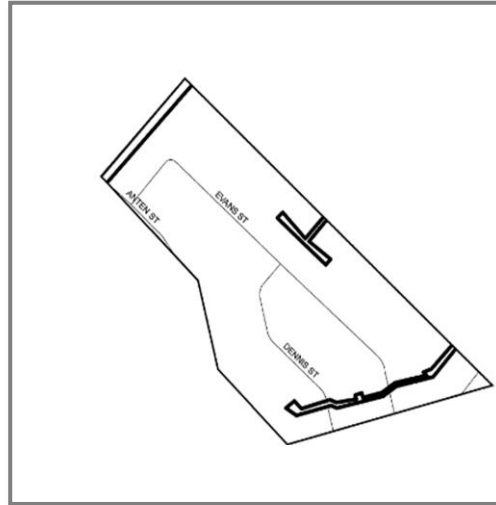

July 2019 – October 2020

SYNERGY NORTH is in the process of replacing our underground primary cables in the Phillips Anten area. Primary cables are currently direct buried and will be replaced by installing new underground duct using a directional boring method along with new primary cables within the directionally bored duct.

Both our company and contractor trucks will be on location. This will improve the reliability of the underground assets in the neighborhood and make the system more efficient.

The following area will be affected:

- Evans St.
- Dennis St.
- Anten St.
- Phillips Ave.
- Phillips St.
- Mcauliffe Pl.

If you have received this notice, you may experience a few power interruptions and/or traffic delays during the course of the project.

If you have any concerns, special schedules or questions,
please call

John Bociurko, LTL Contracting

or

Jonathan Murphy, Lines Construction Supervisor
