

NOTICE

OF HYDRO WORK IN YOUR NEIGHBOURHOOD

June-September 2020

SYNERGY NORTH is in the process of upgrading the electricity system throughout the area. Your neighborhood is scheduled to be upgraded from June to September 2020.

Both our company and contractor trucks will be on location. Crews will be clearing trees, replacing old hydro poles and upgrading the power lines. This will improve the reliability of the equipment in the neighbourhood and make the system more efficient.

The following area will be affected:

- Walsh Street East (Between Sprague Street and Kingsway Street)

If you have received this notice, you may experience a few power interruptions during the course of the project. Street lights in your area may also be affected.

For example, when we transfer your service line to the new power lines, power will be interrupted for about an hour. When we anticipate a longer interruption, we will try to notify you in advance wherever possible.

If you have any concerns, special schedules or questions,
please call:

Jonathan Murphy, Lines Construction Supervisor
