For Immediate Release

PLANNED CITY-WIDE OUTAGE IN KENORA – 6:00am – 2:00pm

Kenora, ON - SYNERGY NORTH is obliged to announce a Kenora city-wide outage scheduled for **October 1, 2023**, due to an enhancement of electrical infrastructure.

This Investment Project involves Hydro One Technicians installing a new switch at the Rabbit Lake Switching Station and replacing aging equipment that has reached end of life. This new switch will enable parallel operation with two power sources, eliminating the need for future outages when switching between them. This project represents a significant investment in the improvement of the electrical infrastructure in the Kenora District.

A scheduled 8-hour outage, from **6:00 am to 2:00 pm CDT on October 1, 2023**, will be necessary to facilitate the installation of the new switch and complete the associated work. SYNERGY NORTH is committed to minimizing the impact on residents and businesses in Kenora by ensuring the necessary resources are available and a timely restoration of power once the project is completed.

SYNERGY NORTH is dedicated to serving its customers and providing a reliable power supply. This project is a testament to our commitment of supporting the growth and development of the community.
