

NOTICE

OF HYDRO WORK IN YOUR NEIGHBOURHOOD

Original Date: July 2023 - November 2023

New Date: May 2024 – November 2024

SYNERGY NORTH is in the process of upgrading the electricity system throughout the area. Unfortunately, the upgrade has been delayed from the original date due to a delay in getting the necessary material to perform the work.

Your neighborhood is now scheduled to be upgraded from May 2024 - November 2024. Both our company and contractor trucks will be on location. Crews will be removing vegetation surrounding the transformers, replacing pad mounted transformers as well as foundations located in the backyard easements of property including restoring the cables providing power to the area. This will improve the reliability of the equipment in the neighborhood and make the system more efficient.

The following area will be affected:

- Simon Fraser Dr.
- Erindale Cr.
- Erindale St.

If you have received this notice, you may experience a few power interruptions during the course of the project. Street lights in your area may also be affected. For example, when we transfer your service line to the new transformer, power will be interrupted for about 4 hours. When we anticipate a longer interruption, we will try to notify you in advance wherever possible.

If you have any concerns, special schedules or questions, please call:

Jonathan Murphy, Lines Construction Supervisor
